PROFESSIONAL SUMMARY

Product Management professional with 4+ years of experience leading end-to-end enterprise product lifecycles, digital transformations, and AI-driven workflow automations across healthcare and technology domains. Proven track record of bridging engineering, operations, and business strategy to turn complex operational bottlenecks into scalable digital solutions. Adept at PRD/BRD creation, wireframing, roadmap prioritization, and data-driven decision-making to optimize cross-functional efficiency, elevate user experience, and drive measurable ROI.

CORE COMPETENCIES

- **Product Strategy & Delivery:** Product Vision & Road mapping, Problem Discovery, PRD/BRD Writing, User Journey Mapping & Wireframing, Backlog Grooming, Feature Prioritization, Agile/Scrum Execution.
- **Technical & Process Excellence:** AI/ML Workflow Automation, Business Process Re-Engineering (BPR), API Integrations, System Architecture, Vendor Governance, UAT & Deployment.
- **Data & Business Intelligence:** SQL, Product Metrics (Cohort & Retention), Data Modelling, Power BI, Tableau, Advanced Analytics, ROI & Efficiency Tracking.

WORK EXPERIENCE

Assistant Product Manager – CTO Office | Medi Assist TPA, Bangalore

Feb 2026 – Present

- Cut annual software spend by ₹35L by architecting and launching an **AI-assisted internal PM platform**, replacing Zoho with a business-specific solution that improved cross-team collaboration and executive reporting.
- **Reduced customer onboarding TAT from 8–9 days to 2–3 days** by redesigning fragmented workflows into a centralized module integrating CRM, Operations, and IT, boosting process visibility for 10+ transformation initiatives.
- Delivered ₹40L in annual operational savings by leading end-to-end **Support Module Automation** — requirement elicitation, BRD/PRD, solution design, UAT, and production rollout — cutting manual effort and improving data accuracy.
- Achieved ₹70L in annual cost savings across 24+ resources by owning vendor evaluation, commercial negotiation, and SOW governance, while sustaining zero missed recovery/penalty cases post revamp of the audit module.

Assistant Manager – Business Process Re-Engineering | Paramount Health Insurance TPA, Mumbai

Mar 2024 – Feb 2026

- Generated ₹20L in annual savings and a 30% TAT reduction by owning the full product lifecycle of an in-house **AI/ML-enabled enterprise ticketing platform**, from discovery through post-launch optimization.
- Aligned Product, Engineering, and Operations stakeholders to define requirements and prioritize roadmaps, translating business challenges into scalable, metrics-driven technology solutions.

Senior Executive – Business Process Re-Engineering | Paramount Health Insurance TPA, Mumbai

Feb 2023 – Mar 2024

- Improved cross-functional process efficiency by an **average of 21%** by re-engineering 11+ critical business workflows through data analysis and technology-driven redesign.
- Delivered **18+ technology initiatives** by partnering with Product and Engineering teams on requirement gathering and functional solution design, enhancing system performance and UX.

Project Coordinator | NexGen Integrated Systems, Mumbai

Jun 2022 – Feb 2023

- Sustained a **96% delivery efficiency rate** managing 12 concurrent projects, leading a 7-member cross-functional assembly and testing team.
- Won bids on **10+ enterprise projects** by ensuring SOP compliance, client alignment, and end-to-end documentation.

TOOLS & TECHNOLOGIES

Product Management: Jira, Zoho Sprints, Figma, Microsoft Visio, Mermaid AI, Powerpoint

Analytics & Tech: SQL, Power BI, Tableau, Looker Studio, Advanced Excel

AI Tools: Claude, ChatGPT, Gemini, Ollama, GitHub Copilot

EDUCATION & CERTIFICATIONS

B.E., Electronics & Telecommunication — University of Mumbai | CGPA: 8.9/10.0

Top Certifications: IBM Product Management | Google Project Management | Google Data Analytics | Six Sigma Yellow Belt
