# JATIN CHAUDHARY

*Product Manager*

+91-7977916549 | jatinchaudhary910official@gmail.com | LinkedIn | Portfolio | Bangalore, India

## PROFESSIONAL SUMMARY

Product Manager with **4+ years** owning end-to-end enterprise product lifecycles across healthcare and technology domains from problem discovery, market research and PRD/BRD authorship to AI-driven workflow automation and post-launch optimization. Track record of converting operational bottlenecks into scalable digital products, delivering **₹185L+ in cumulative annual savings** while measurably improving process efficiency, TAT, and cross-functional user experience. Strong in data-driven prioritization, stakeholder alignment, and shipping fast in ambiguous, resource-constrained environments.

## CORE COMPETENCIES

- **Product Strategy & Discovery:** Product Vision & Road mapping, Problem Discovery, Market Research, PRD/BRD Authorship, User Journey Mapping, Usability Testing, Feature Prioritization, Agile/Scrum Execution
- **Analytics & Metrics:** Cohort Analysis, A/B Testing, ROI/Efficiency Tracking, Data Modelling, Power BI, Tableau, Looker Studio, SQL.
- **Prototyping & Design:** Wireframing, Interactive Prototyping, Figma, Microsoft Visio, Mermaid AI, Cross-Functional UAT Design
- **Technical & AI:** AI/ML Workflow Automation, Prompt Engineering, API Integrations, System Architecture, Business Process Re-Engineering (BPR), Vendor & SOW Governance

## WORK EXPERIENCE

**Assistant Product Manager — CTO Office** | **Medi Assist TPA, Bangalore** *Feb 2026 – Present*

- **Led** the design and launch of an AI-assisted internal PM platform to replace Zoho, reducing annual software spend by **₹55L** and improving cross-team collaboration and reporting for management.
- **Built and trained** a **claims query chatbot** for end customers, based on analysis of recurring call centre queries and existing claims letters, reducing specific repeat query volume at the call centre by **71%**.
- **Redesigned** onboarding workflows into a single module integrating CRM, Operations, and IT, reducing customer onboarding time from **8–9 days to 2–3 days** (about 70%) across **10+ transformation projects**.
- **Managed** end-to-end automation of the Support Module, covering requirement gathering, BRD/PRD documentation, solution design, UAT, and rollout, delivering **₹40L in annual savings** and improving data accuracy while reducing manual work.
- **Managed** vendor evaluation, negotiation, and SOW governance for **24+ resources**, achieving **₹70L in annual cost savings**.

**Assistant Manager — Business Process Re-Engineering** | **Paramount Health Insurance TPA, Mumbai** *Mar 2024 – Feb 2026*

- **Led** discovery and adoption of an in-house AI/ML-enabled ticketing platform, including user research and workflow mapping, achieving **82% user adoption** within 4 months of launch, **₹20L in annual savings**, and a **30% reduction in turnaround time**.
- **Revamped and implemented** a new Benefits configuration module to support modular, multi-level benefit structures for new-age policies that the earlier system could not process, automating end-to-end benefit mapping and reducing benefit-mapping-related penalties by **78%**.

**Senior Executive — Business Process Re-Engineering** | **Paramount Health Insurance TPA, Mumbai** *Feb 2023 – Mar 2024*

- **Conducted** user research and re-engineered **11+** business workflows through stakeholder interviews and data analysis, improving process efficiency by an **average of 21%** and reducing manual processing errors by **78%**.
- **Delivered 18+** technology initiatives with Product and Engineering teams, covering requirement gathering, solution design, and UAT, improving system performance, raising internal user satisfaction scores from **60% to 89%**, and reducing turnaround time by **30%**.

**Project Coordinator** | **NexGen Integrated Systems, Mumbai** *Jun 2022 – Feb 2023*

- **Maintained** a **96% delivery efficiency rate** across 12 concurrent projects, leading a 7-member cross-functional team.
- **Won 10+** enterprise project bids by ensuring SOP compliance, client alignment, and complete documentation.

## TOOLS & TECHNOLOGIES

- **Product Management:** Jira, Zoho Sprints, Figma, Microsoft Visio, Mermaid AI, PowerPoint
- **Analytics & Metrics:** SQL, Power BI, Tableau, Looker Studio, Advanced Excel
- **AI Tools:** Claude, ChatGPT, Gemini, Ollama, GitHub Copilot

## EDUCATION & CERTIFICATIONS

**B.E., Electronics & Telecommunication** — University of Mumbai | CGPA: 8.9/10.0

**Certifications:** IBM Product Management | Google Project Management | Google Data Analytics | Six Sigma Yellow Belt
